

# Best Practices With Mobile for SAP

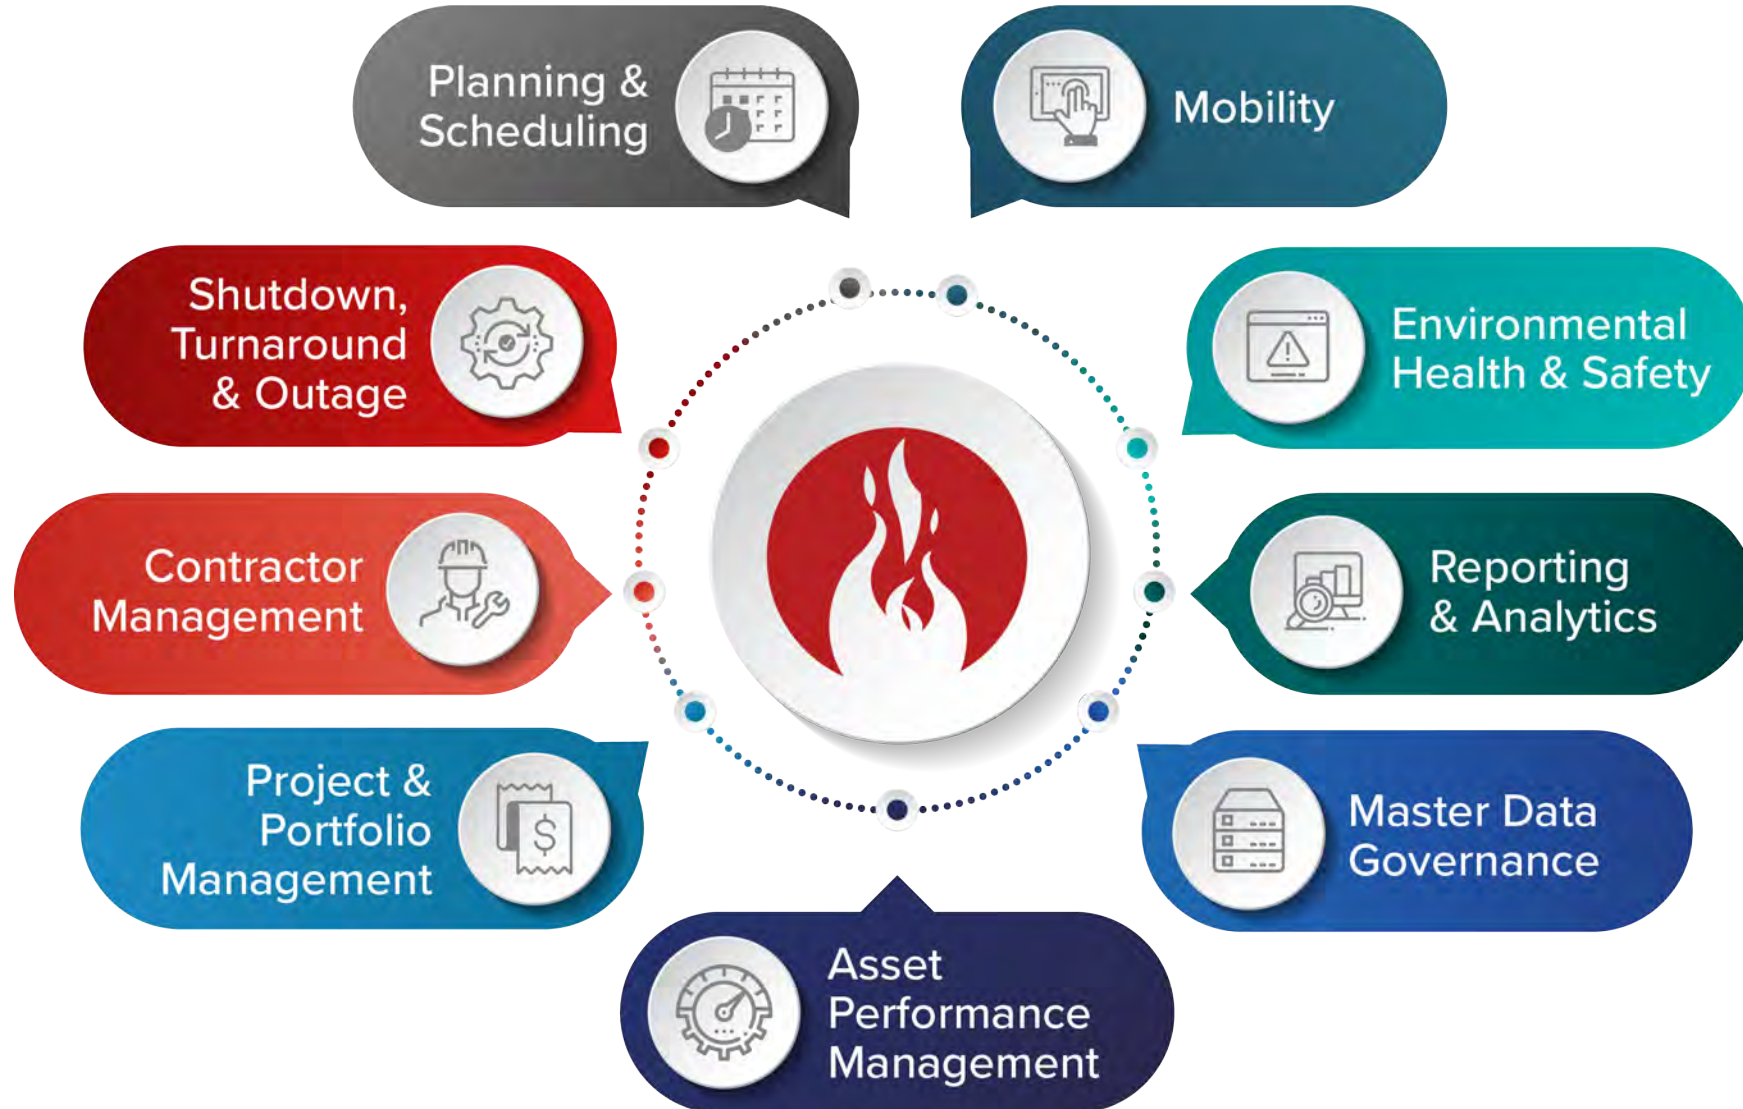

Juan Lopez, Sr. Functional Consultant

April 18<sup>th</sup>, 2023

# Agenda

- Key Issues and Challenges
- Project Practices
- Where Are We Going?

# The Prometheus Platform

# Prometheus Group

- Founded in 1998
- Headquartered in Raleigh, NC, USA
- 13 global offices
- Integrated and intuitive software
- Partnerships with industry leading companies

**TOP 8**

Oil & Gas

**TOP 7**

Mining & Metals

**TOP 7**

Pulp & Paper

**TOP 6**

Chemical

**TOP 6**

Utilities

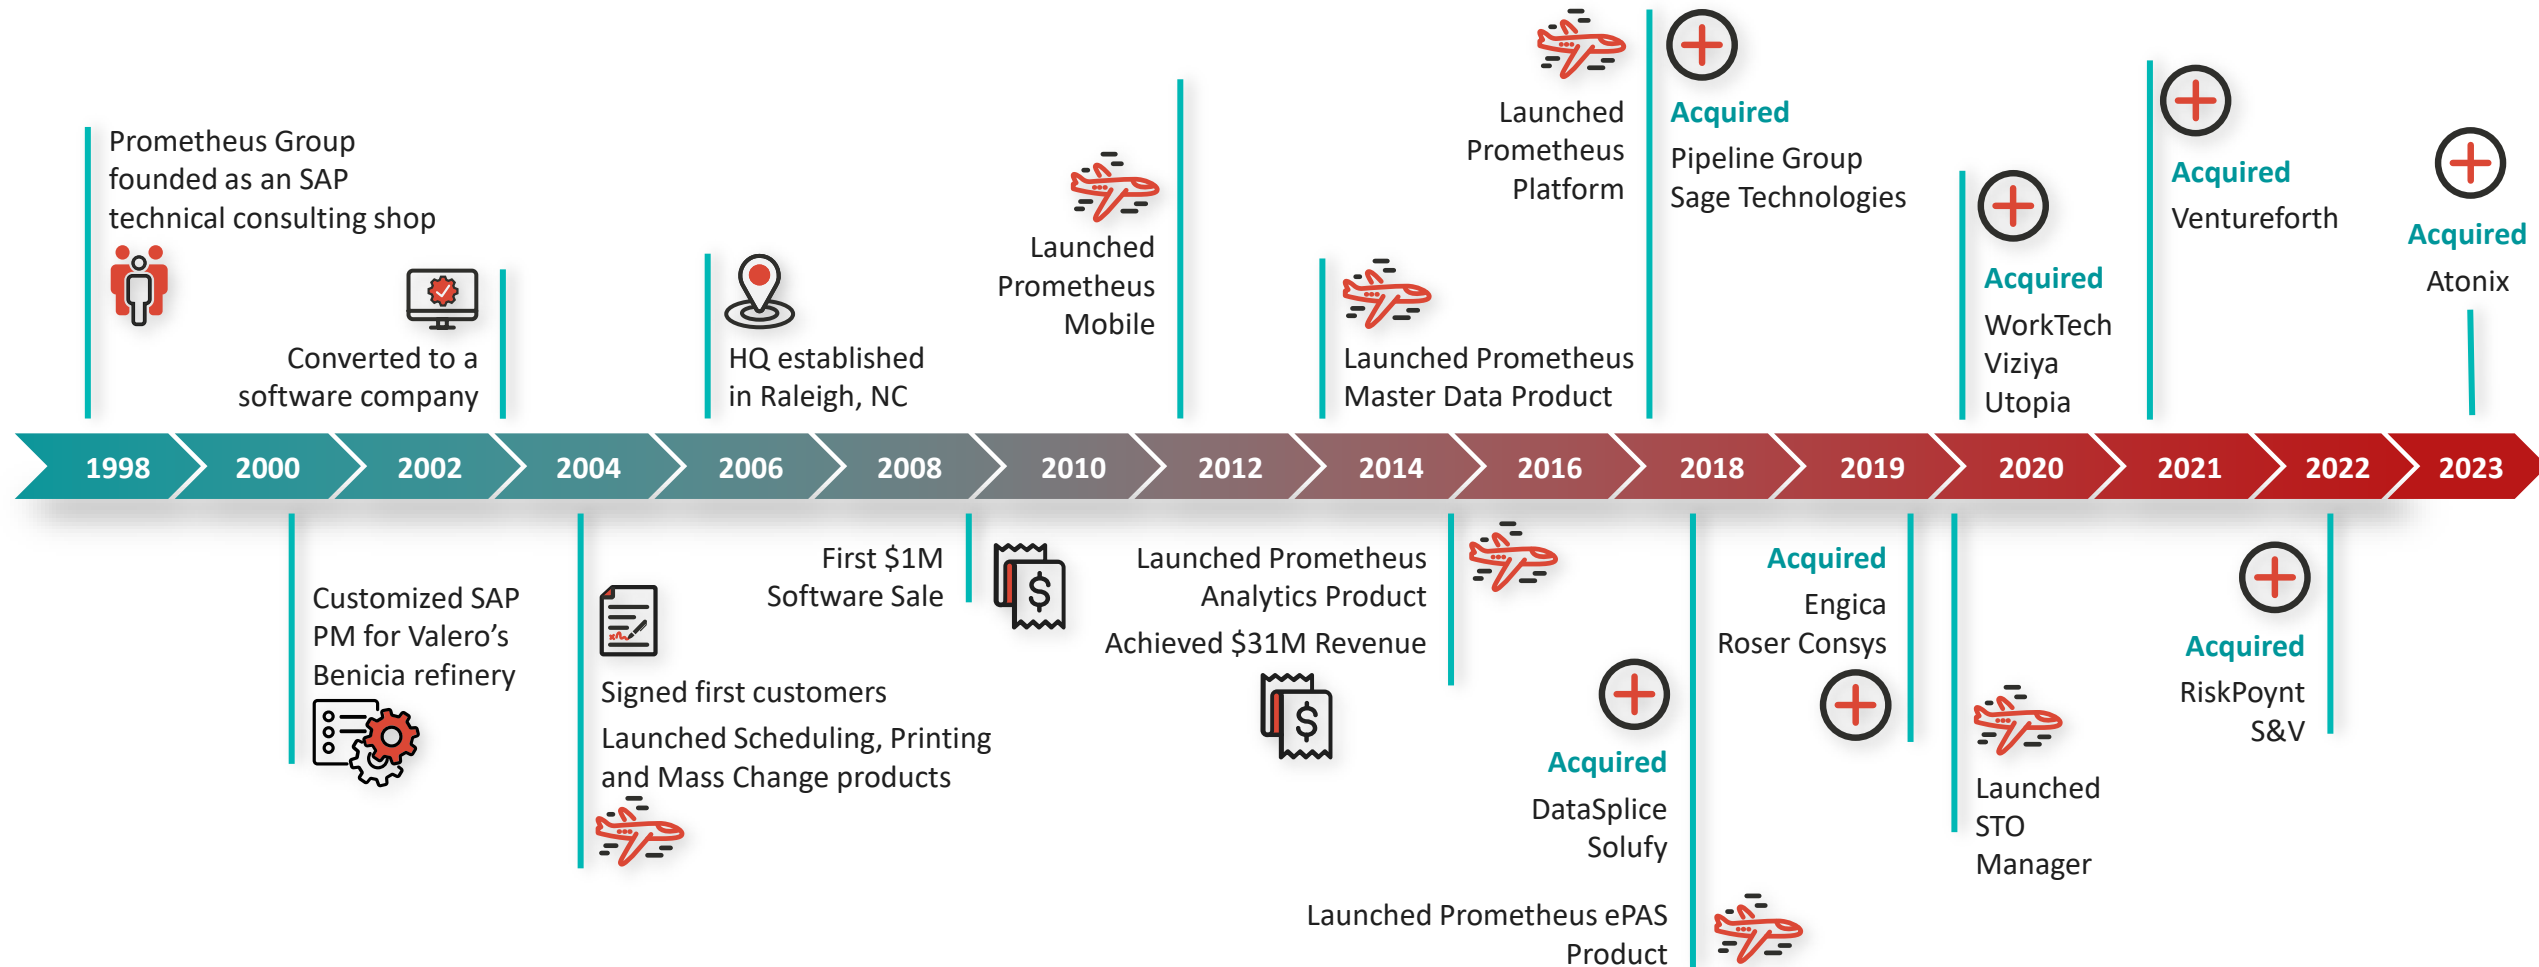

SAP® Certified  
Integration with SAP® S/4HANA

ORACLE Gold Partner

# The Prometheus Journey

# Key Customers

# Best Practices

# 70%

Percent of companies have a digital transformation strategy in place or are working on one

# \$140 billion

Amount of money the U.S. wireless industry invested in infrastructure enhancements between 2016 and 2020.

# 40%

Percent improvement in efficiency companies experience from digital transformation

# Mobility for SAP

## Plant Maintenance

Easy access to tools needed to identify, plan, and execute work orders

## Operator Rounds

Eliminate paper checklists to ensure consistency and best practices are enforced

## Inventory Management

Easily track inventory usage and perform goods movements

## Permitting

Create and manage work permits, isolations, and risk assessments

## STO Execution

Integrate and extend existing systems for unified communication during STOs

## Production Execution

View and complete production orders, documents, and more

# Key Issues and Challenges

- Connectivity
  - Continued Expansion of Coverage
  - Connectivity is not always necessary!
- Awareness of Offline Solutions
  - Offline Capabilities are not only available, they are a core requirement of most mobile initiatives
- Flexibility
  - Configurable solutions for ever-evolving workflows

# Increase Efficiency

- Streamline, digitize, and standardize daily workflows
- Complete Configurability by Customer
- Improved data collection across all phases – Creation, Planning, Execution, and Tracking
  - Automated field entry
  - Barcode, QR Code, RFID Scanning Asset ID

# Enhance Communication

- Maintain One Single Source of Truth
- Immediate updates of data collected during execution
- Generate Up-To-Date Metrics and KPIs for Analytics Reports
- Digitize maintenance and operator processes

# Demonstration

Where Are We Going?

# What's Next?

- Enhanced GIS features
  - Visualize your work Routes and safe time
- Prometheus APM
  - Integration with the newest arm of the Prometheus Platform
- Prometheus ePAS
  - See the status and information from your permit from a Work Order
  - Configurable Push Notifications

# Mobility Roadmap

2023

## Mobile Plant Maintenance

- Timesheets
- Configurable Push Notifications
- Integrated Checklists/Forms
- Platform Integration
- GIS Enhancements
- UX Improvements

## Mobile Inventory Management

- Enhancements to Cycle Counts
- Mass Material Transfers

2024

## Mobile Plant Maintenance

- EAM Checklist Support
- Timesheets
- UX Improvements

## Mobile Inventory Management

- PO/PR Approvals
- Label Print Integration

Beyond

## Additional Items

- App-store Publishing
- SAP Public Cloud
- Production Planning Module
- Master Data Module
