

PROMETHEUS GROUP

# Successfully Integrating Mobile Into Your Workflow

---

Carson Snyder – *Functional Consultant*

Bailey Brandel – *Functional Consultant*

**March 19, 2024**

# Agenda

- Prometheus Introduction
- Gaps in Current Processes
- Maintenance and Operations Alignment
- Keys to Going Mobile
- How Mobile Enhances Safety, Efficiency, and Cost Savings
- How Prometheus Mobility Can Support a Variety of Functions and Processes
- Demonstration
- Questions

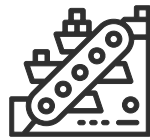

# Prometheus Group

- Founded in 1998
- Headquartered in Raleigh, NC, USA
- 13 global offices and 1000+ employees
- Integrated and intuitive software
- Partnerships with industry leading companies

**TOP 10**

Oil & Gas

**TOP 8**

Mining & Metals

**TOP 8**

Pulp & Paper

**TOP 8**

Utilities

**TOP 6**

Chemical

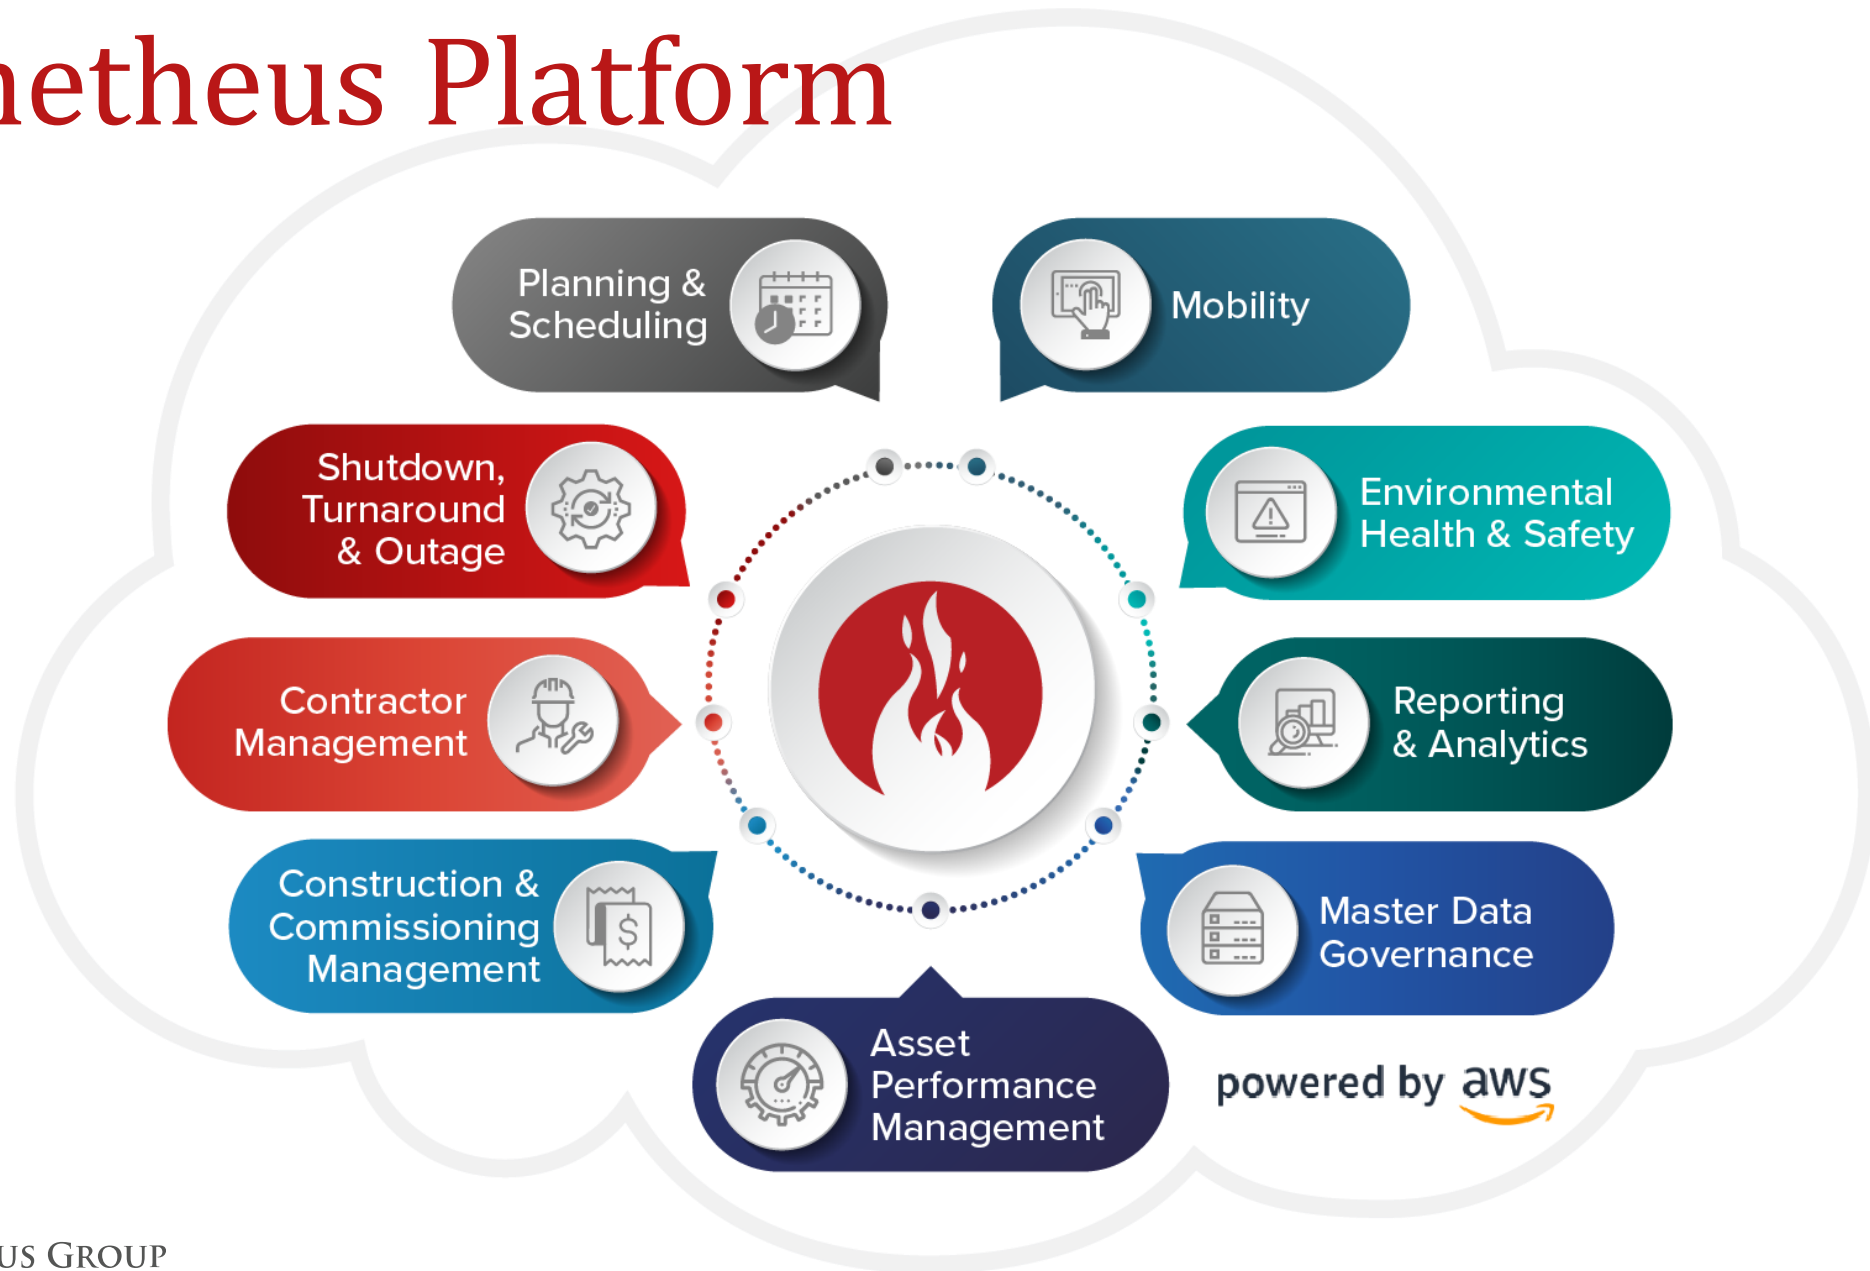

PROMETHEUS GROUP

**SAP®** Certified  
Integration with SAP S/4HANA®

**ORACLE®** Gold  
Partner

# Prometheus Platform

# Key Customers

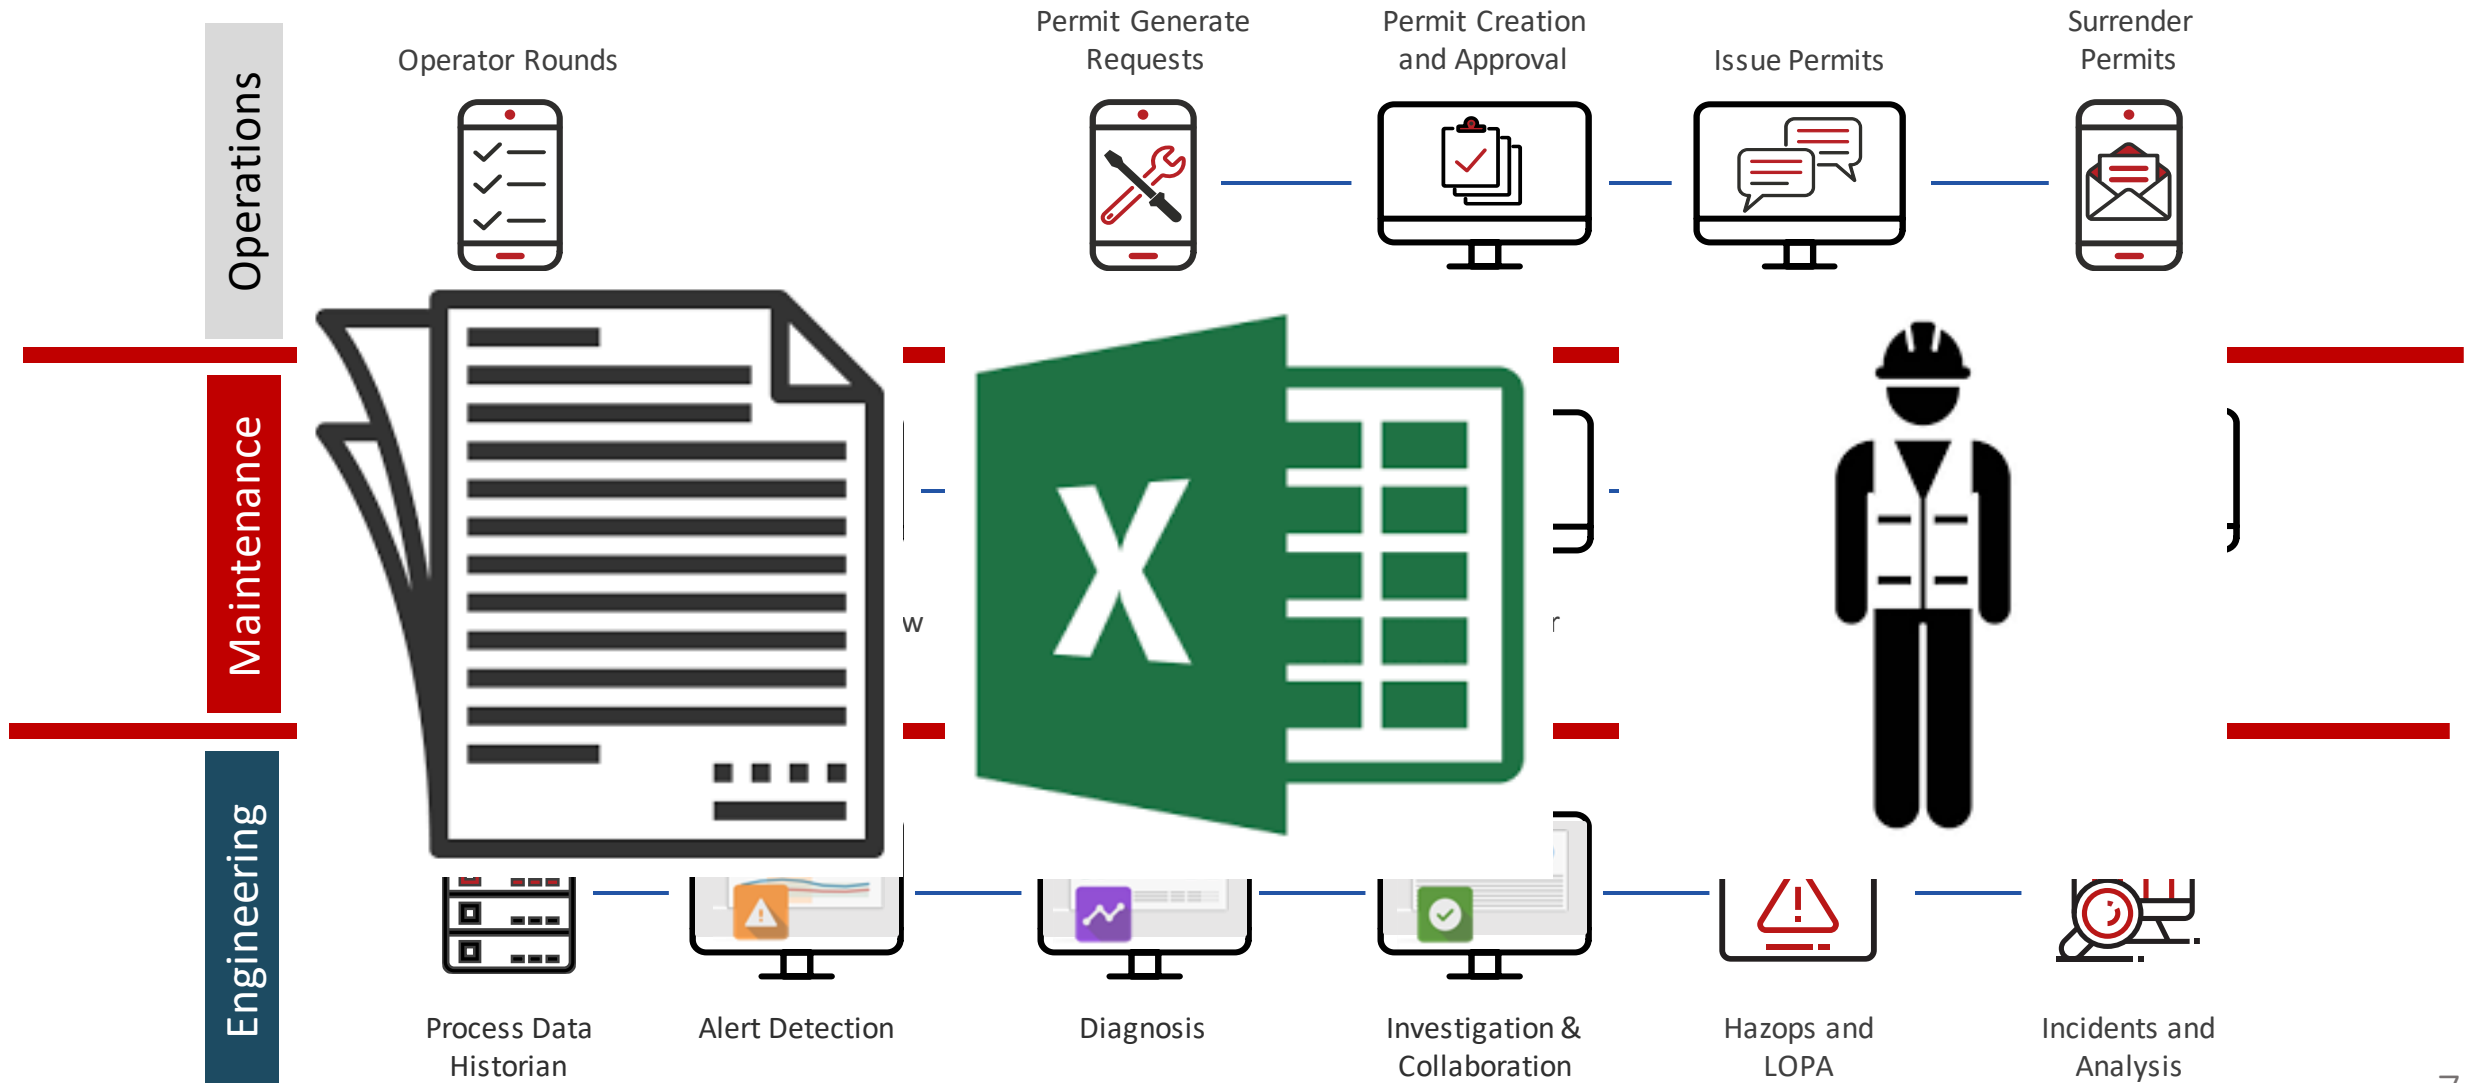

PROMETHEUS GROUP

# Gaps in Current Processes

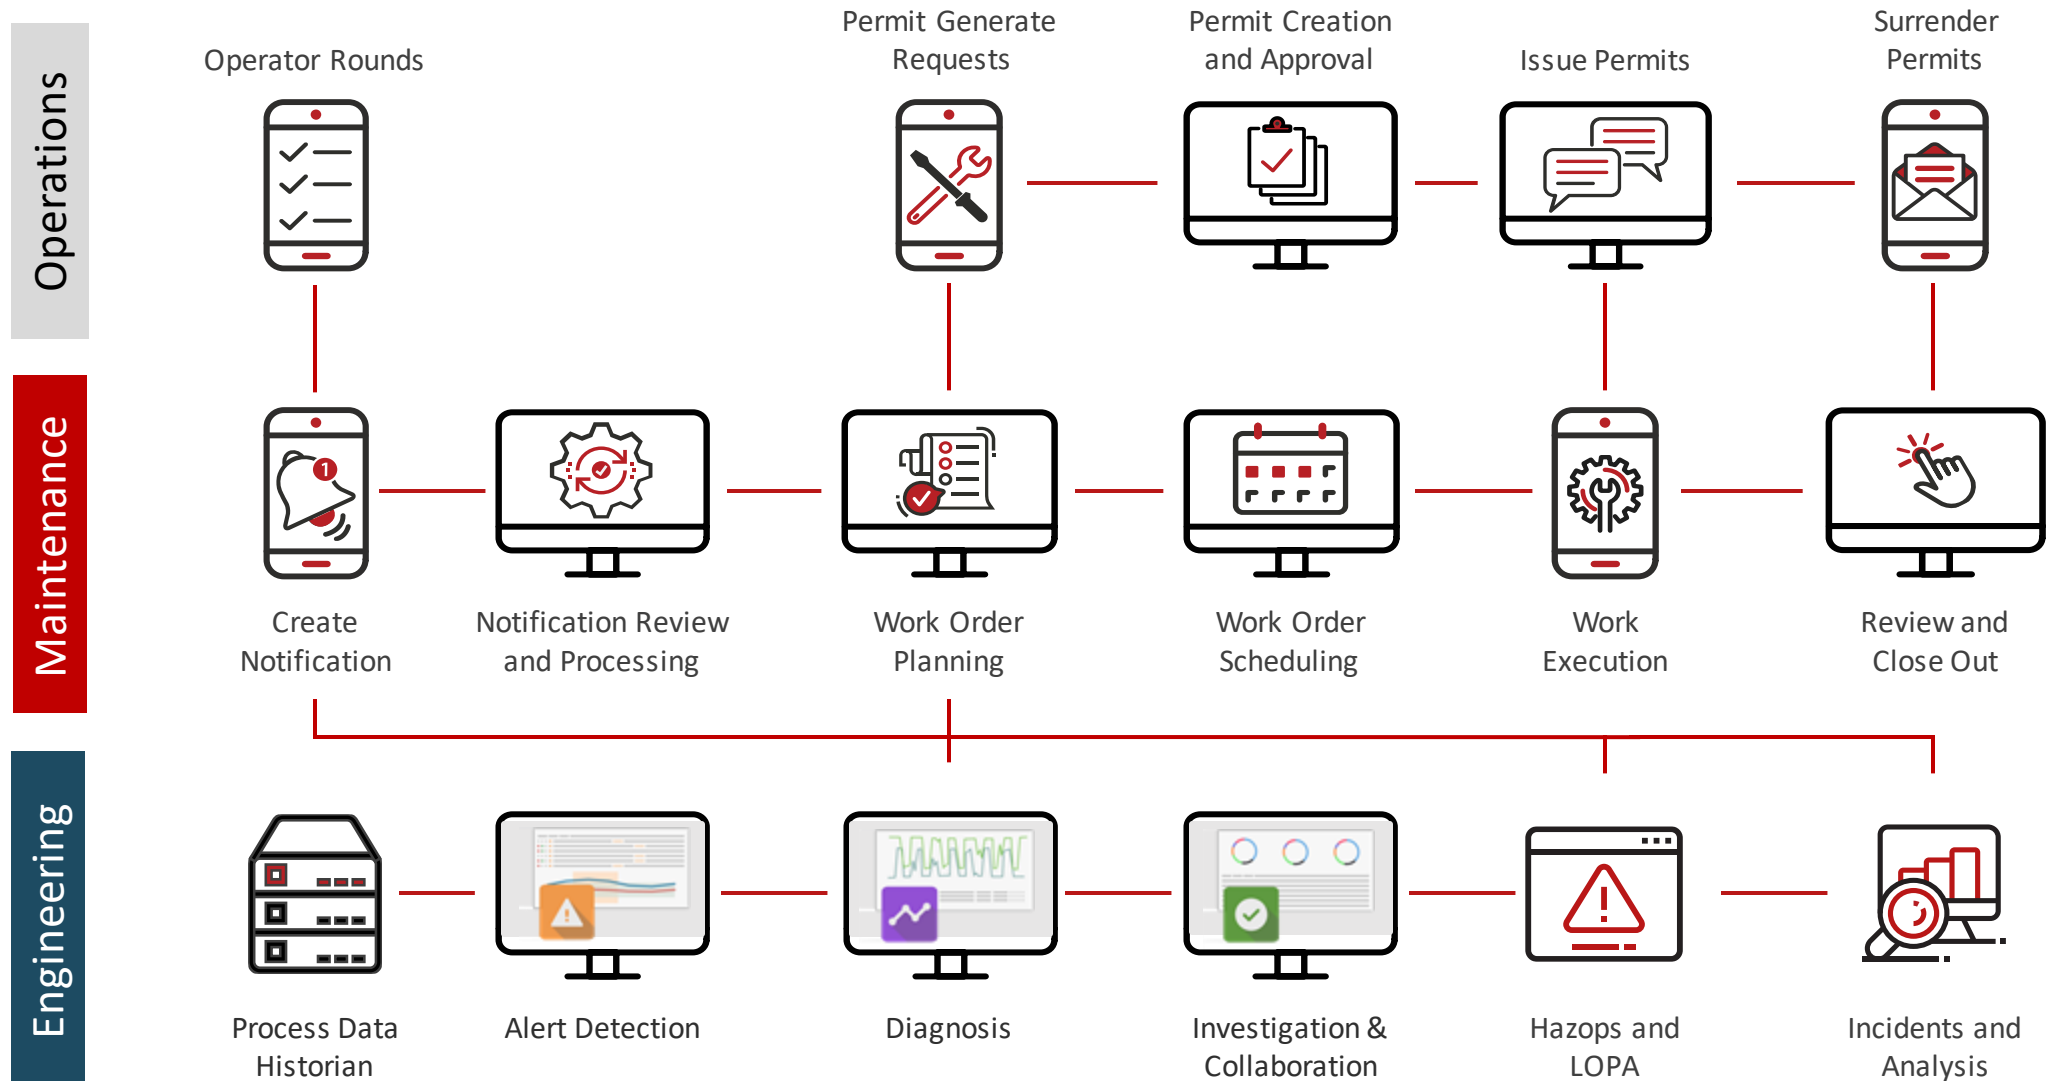

- Paper Process
  - Inaccurate/missing data
  - Double handling of work order information with manual input
  - Inconsistent workflow
  - Issues go unnoticed and asset history is incomplete
- Lack of SAP PM knowledge
  - Users don't know T-Codes
  - Work orders left open beyond execution date
  - Lack of visibility into key work order information

# Current Gaps: Connection

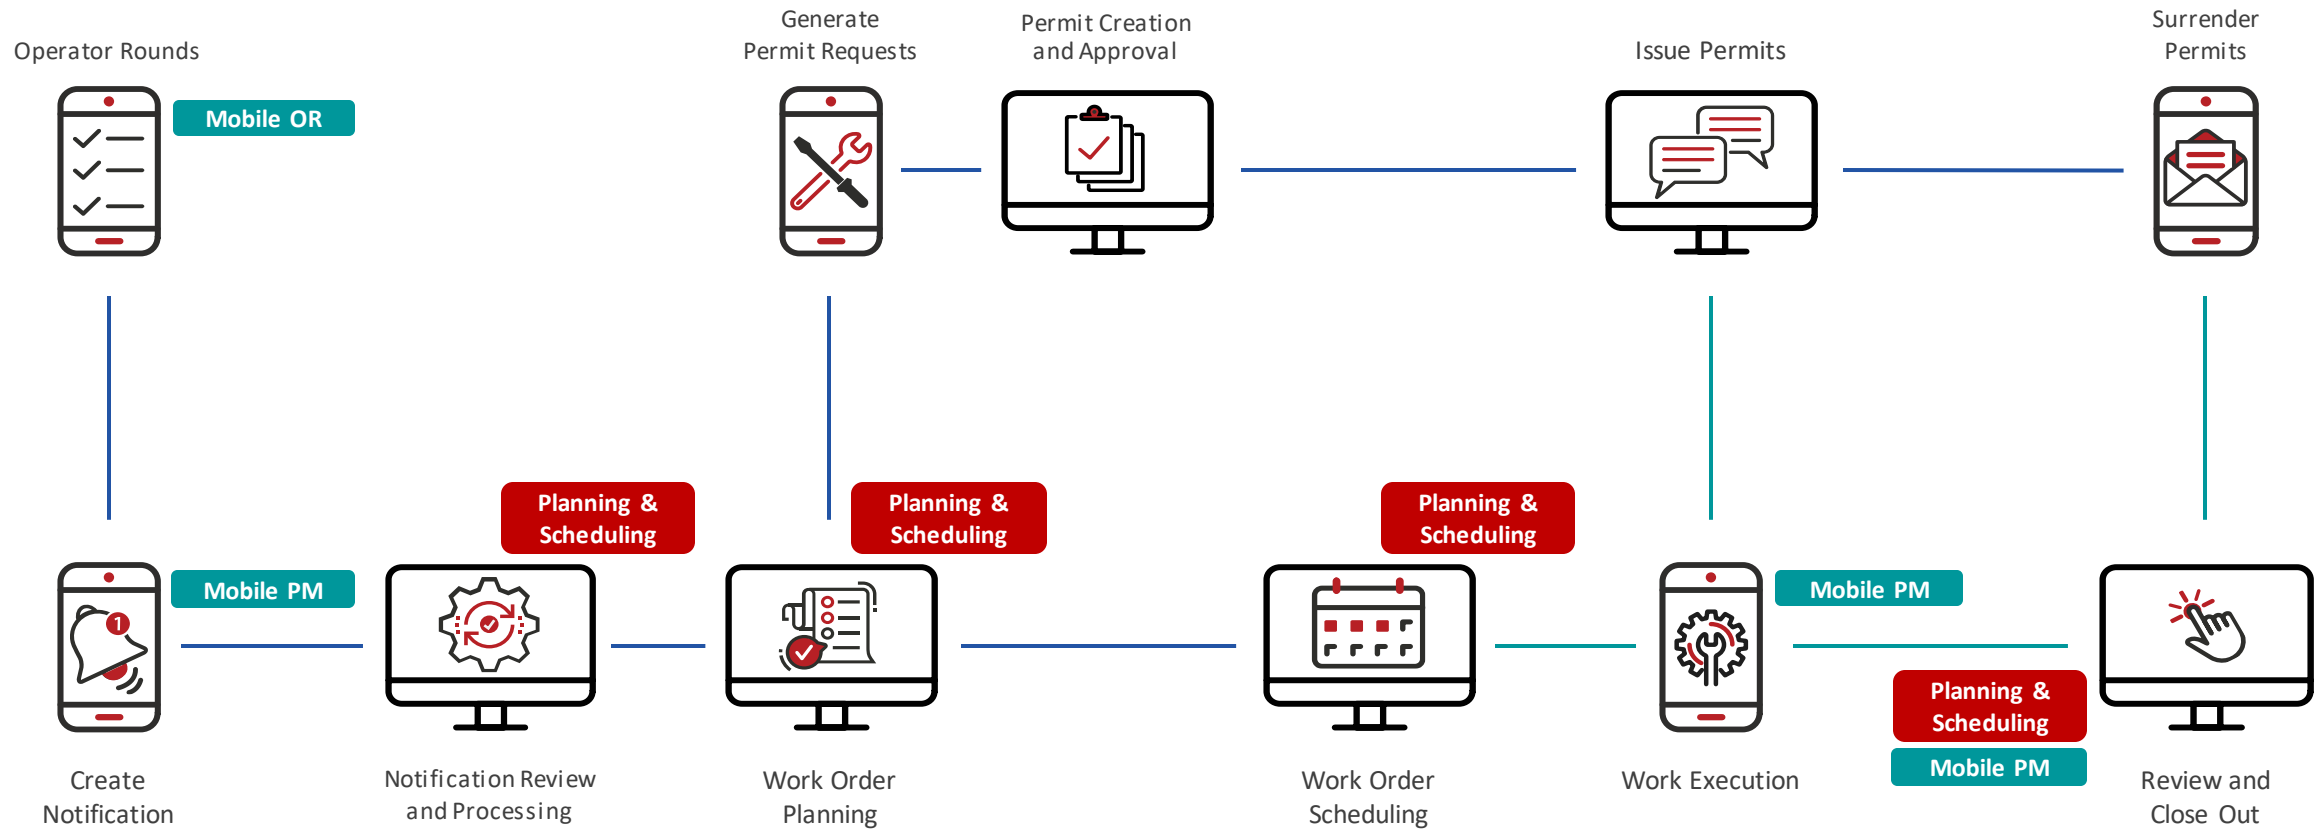

# Maintenance and Operations Alignment

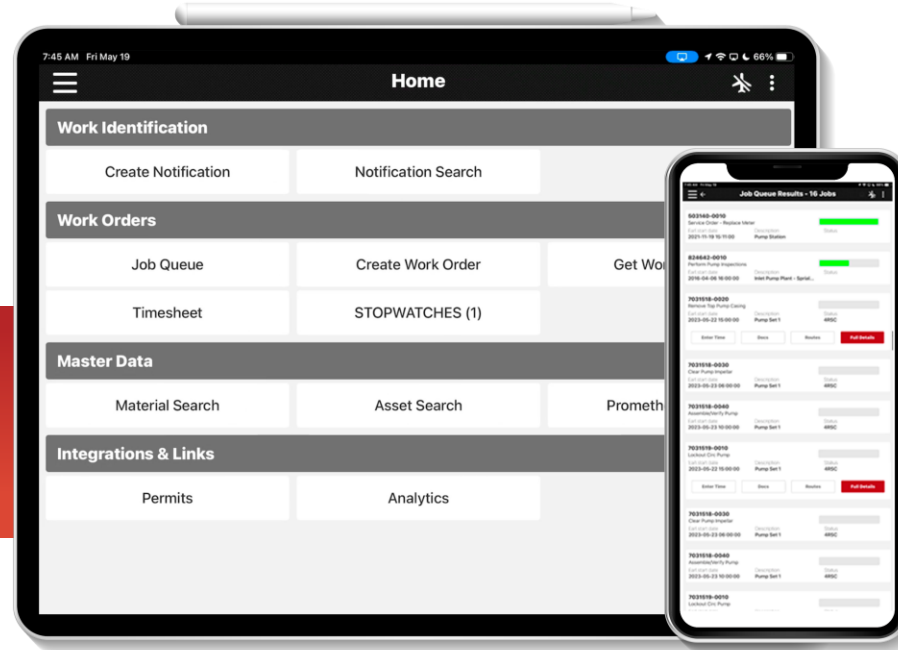

# Prometheus Mobile

Operations

PROMETHEUS GROUP

# Mobility

## Plant Maintenance

Easy access to tools needed to identify, plan, and execute work orders

## Operator Rounds

Eliminate paper checklists to ensure consistency and best practices are enforced

## Inventory Management

Easily track inventory usage and perform goods movements

## Permitting

Create and manage work permits, isolations, and risk assessments

## STO Execution

Integrate and extend existing systems for unified communication during STOs

## Production Execution

View and complete production orders, documents, and more

# How Does Prometheus Mobility Improve Maintenance?

- Enhances Efficiency
  - Real-time sync with SAP
  - Eliminates paper processes
  - Eliminates tribal knowledge
  - Increases communication between departments
- Streamlines:
  - Work identification and execution
  - Cost Savings: Inventory management
  - Operator rounds
  - Safety: Manage permits, isolations, and risk assessments
  - STO execution

# Successful Mobile Adoption

- Integrate directly with SAP
- Use a device your team is familiar with
- Have an idea of what standardization looks like for your organization
  - Workflow Standardization
  - KPIs to track
- Configure screens to match your organizations desired workflow
