- **Used by industry leaders:** In oil & gas, manufacturing, chemicals, mining and metals, food and beverage, life sciences, power, and energy
- **Based in Raleigh, North Carolina:** With a global presence

ANALYTICS

- Reports tailored to your business to track performance factors that matter
- Quickly and easily view reports to plan your next week, month, or year
- Spend more time analyzing data and less time finding it

Curated Metrics

Prometheus builds metrics based on discoveries in the data and trends in the industry to help your business gain a competitive advantage

Corporate Level Analytics

View performance and identify trends to improve your business. Compare your business to the industry.

Site-Specific and Role-Based Reports

Gain visibility of each site and compare performance to identify areas of improvement. Then, break this down by department of role.

OPERATIONAL BENEFITS

Benefits	How?
Improved First-Time Fix Rates	Access to key information enables workers to increase efficiency in the field.
Better Planning & Scheduling	Better data input allows planners/schedulers to optimize shift schedules and prioritizes assigned work
Time savings	No longer exporting, creating charts & graphs
Extend Asset Life	Workforce performing preventative maintenance to help reduce unexpected outages and emergency fixes

A PROVEN SOLUTION—CUSTOMER CASE STUDY

Large
manufacturing
company
producing
4,000+
products

Analytics delivers a true picture of this customer's performance across 9 facilities as well as on an individual site level

Real-time metrics give them clear visibility into areas needing additional support before major issues arise

9
manufacturing
facilities
worldwide

Visibility into good data is helping this customer drive manufacturing best practices, getting them to 80% planned

Saved 108 man hours per week previously spent pulling information and building reports, while easily sharing without the need for additional SAP licenses
