PROMETHEUS MOBILE

Prometheus Mobile offers intuitive mobile applications that connect workers in the field with SAP, streamlining and simplifying the entry of remote data into SAP.

- ✓ Works online and offline
- ✓ Available for iOS, Android, and Windows
- ✓ Simplified user interface
- ✓ Real-time access to SAP data
- ✓ Instant configuration via the Mobile Admin Panel
- ✓ Adjust layout for use case and role
- ✓ Rapid deployment/quick time to benefit
- ✓ Seamless integration with your SAP system—requires no middleware/hardware
- ✓ Mobile functionality for inventory/warehouse management and production planning also available

PROMETHEUS MOBILE SOLUTIONS

Mobile Plant Maintenance

View and create work orders, enter time confirmations, and enter new notifications quickly and easily from the field.

Mobile Production Planning

View production orders and documents, and enter time confirmations from the field, giving technicians timely access to information.

Mobile Inventory/Warehouse Management

Track inventory, enter goods issued and received, utilize barcode scan, view inventory documents, and update inventory count onsite.

MOBILE IS AN ANSWER FOR...

- Data integrity – Eliminates double entry, improving data integrity
- Internet/system access – Logs your data without logging into SAP, and when offline
- User experience – Increases user adoption through an easy-to-use interface
- IT resources – No middleware, reducing the strain on IT resources
- Customization needs – The business has the power to configure changes
- SAP compatibility – Data syncs directly to SAP

A large, light gray circular logo on the left side of the slide. Inside the circle is a stylized flame or leaf-like shape in white, composed of several curved segments.

DEMONSTRATION

A large, stylized, light gray flame logo is positioned on the left side of the slide. It has a circular base with several upward-pointing, flame-like shapes. The word "QUESTIONS?" is written in a large, red, serif font, centered horizontally and partially overlapping the flame logo.

QUESTIONS?
