Prometheus Planning & Scheduling

Prometheus Planning & Scheduling provides cutting edge web-based planning and scheduling solutions for routine maintenance management as well as expansion to preventive maintenance management, material management, and shutdowns/turnarounds/outages.

This out-of-the-box solution streamlines and enhances maintenance processes by utilizing applications that fully integrate with your system of record to keep a single source of truth for your data. A graphical scheduler, short cuts to saved searches, quicker and more effective work packages, and planning enhancements maximizes your planners' and schedulers' efficiency and effectiveness on the job and can lead to a more proactive maintenance program.

Key Capabilities

The Routine Maintenance module is comprised of these core solutions that work together to optimize and streamline the plant maintenance lifecycle.

Navigator - Easily standardize your process and increase adoption for all roles and users

Scheduler - Take control of your planned work with an easy to use graphical scheduler, including mass change functionality

Order Planner - View and plan work orders in an optimized view and access planning enhancements

Order to Task List & BOM - Increase accuracy and efficiency in work order planning by quickly templating information for future use

Material Shoping Cart - Easily search for materials intuitively to reduce free-text spending

Work Package Manager - Quickly compile all documents required to complete a work order to print or send to Mobile

Advantages

- Integration with all solutions on the Prometheus Platform

- Intuitive user interface and experience with modern web design

- Real-time updates from system of record

- Graphically view and schedule work order data

- Maximize resource utilization and wrench time

- Increase schedule and PM compliance

- Reduce work package compilation and printing time

- Standardize and streamline work planning

- Increase schedule alignment and adoption

- Reduce reactive work and increase preventive work
