

# Prometheus Dashboard

Introducing Dashboard from Prometheus Group  
— the foundation of every successful day.

PROMETHEUS GROUP

Dashboard is a powerful, configurable home base that makes data available to users appropriately, intelligently, and interactively. Don't be overwhelmed by all the sources of data: get the right data in an easy-to-read graphical layout that is the perfect starting point to any work.

Dashboards can be set up by user, role, or project so that users can gain at-a-glance insight into the metrics, data, and notifications that are most important to them.

Leverage this central hub to check reports, quickly link to software, reports, and more. You can even launch your Prometheus Platform products and your ERP, EAM, or CMMS directly from Dashboard.

## Key Capabilities

**Planning and Scheduling**  
Active orders, work order quick lists, work orders past due.

**Mobility**  
Usage reports.

**Permitting and Safety**  
Interactive active permit plotting map, LTI rate, expired permits, open emergencies, isolation certificates.

**Shutdown, Turnaround and Outage Management**  
Shutdown metrics, scope stability.

**Workforce Management:**  
Work order summary, pending approval reports.

**Reporting and Analytics**  
Work type for period, past work week breakdown, ANY chart from your Prometheus Analytics solution.

*And many more, with additional widgets being added daily!*

## Advantages

- **Configure and personalize your workspace:** Add, adjust, re-size, and move widgets, save defaults by user, easily switch between aesthetically pleasing and intuitive layouts.
- **Go anywhere:** Link to Prometheus Platform products; link to queries, lists, and more in your ERP/CMMS; link to third-party tools, URLs, T-Codes, etc.
- **Work with real-time data:** Syncs directly with SAP, Maximo, Oracle and other ERPs to provide real-time data.
- **Dive deeper:** Launch your ERP, EAM, or CMMS directly from Dashboard.
- **Organize and collaborate:** Unlimited dashboards per user means you can create dashboards based on roles, teams, functions, and more and share those dashboards with others.
- **Secure access anywhere, on any device:** Dashboard is web-based, meaning it will work on any connected device, anywhere — even your mobile device in the field.
- **Get the highlights:** Preview metrics in an easy-to-read graphical layout and dive deeper if needed.
- **Interact with the data:** Hover over items to gain further insight, or click to go to the work order, report, etc.
