

Create and maintain a safer work environment from anywhere: in the office, control room, and now on-the-go. Prometheus Mobile Permitting grants you the power to take full advantage of your digital control of work system while out in the field. Online or offline, you can create and manage work permits, oversee isolations/LOTO, navigate risk assessments, perform audits, and integrate with other work management processes and existing safety systems. Strengthen workplace safety through unbounded accessibility with Prometheus Mobile Permitting.

Key Capabilities

Plan, execute, and complete work permits, LOTO, and more from anywhere.

Enter safety critical information from the field in real-time.

Perform risk assessments and boost visibility into hazards and controls.

Access history and documentation to perform audits in the field.

Verify all isolations at the point where work is executed.

Manage confined space, gas tests, fire watch, shift handover and more.

Work both online and offline.

Utilize a smart and configurable hazards and control database.

Advantages

- Mitigate risks and reduce potential for incidents.
- Standardize your business process while still allowing for unique site and regional requirements.
- Maximize mobile workflow efficiency notifications quickly for emergencies or urgent approvals.
- Eliminate trips back to the office or control room.
- Use templates or copy old permits to reduce manual data entry.
- Reduce hazards with a robust, intelligent conflict assessment system that tracks all planned and scheduled work.
