Scheduling | More than just “When”

- Material Coordination
 - Just-in-time scheduling?
- Assigning Individuals to Jobs
 - Who does this?
 - At what point in your process does this occur?
- “Locking” or “Freezing” the Schedule
 - What does this even mean?
 - When does this happen?

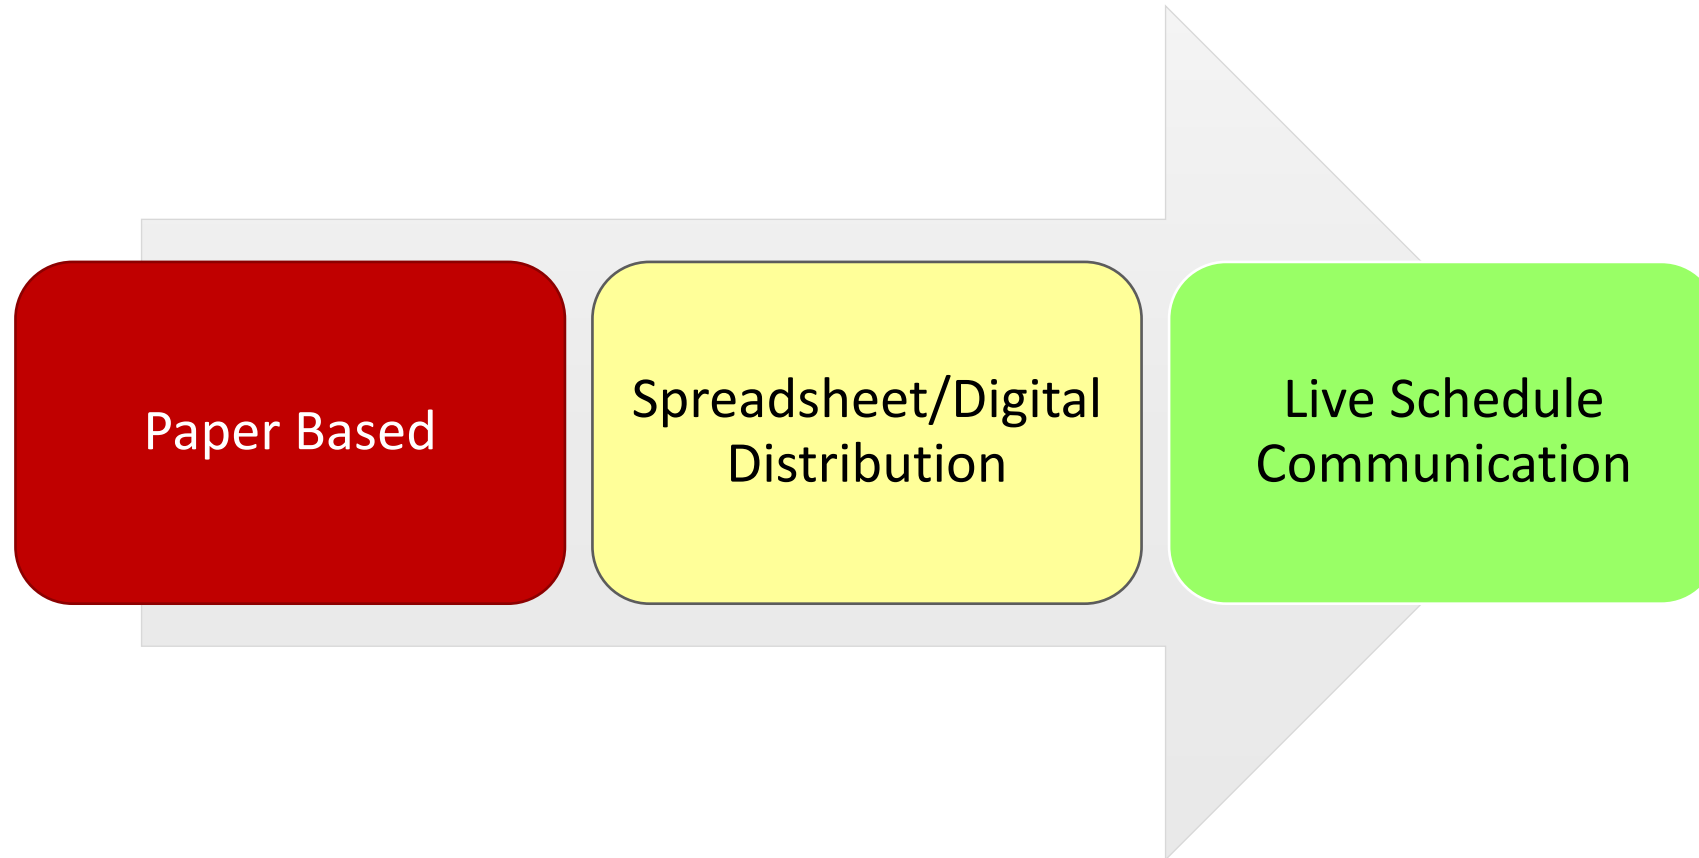

Live Demonstration

The Schedule is Built | Now What?

- What information do we communicate?
- Publishing the schedule
 - How is this done and what is the output?
- Does Production sign off on the schedule?
- Do people actually look at the schedule?

Schedule Publishing Maturity Levels

Live Demonstration

Executing the Schedule

- Retrieving assigned work – systematic, or ad-hoc?
- Integration with the system of record
- Online/offline capabilities
- Does the technology drive the process, or is the process enabled through technology?
- Updates – inevitable changes to the schedule
