Contractor Cost Tracking

WorkTech Productivity Suite

Integration with ERP Ecosystem

Work Orders Defined in ERP

WorkTech Time pulls valid, open Work Orders

Laborer charges time and materials against work orders

Time entries are approved by supervisor

Time and costs are sent back into ERP

Co-Dependent Solution

- WorkTech integrates with every major Enterprise Asset Management Solution including:
  - SAP
  - Maximo
  - Infor
  - Oracle
- Each EAM integration is unique given the specific needs of the client
- EAM integration ensures that true labor costs are reflected, helping with future planning
- WorkTech is the Central Integration Point between your systems

PROMETHEUS GROUP

6

Observed Pain Points

- Inconsistencies abiding by Business Rules
- Disorganized labor data
- Unqualified assignment of work
- Lack of oversight on actual vs planned
- Excessive Clerical Work
- Undefined approval workflow
- Lack of historical data and reference tools

PROMETHEUS GROUP

Live Demonstration
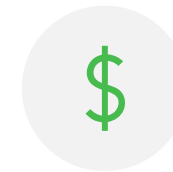

Staff Manager

PROMETHEUS GROUP

WorkTech Time

Capture, validate and approve all worker costs and processes in one system

Data is securely shared with existing enterprise systems according to your need

Streamline your approval process

Dynamic rate structure guarantees that proper rate is paid for the work performed

Attain immediate ROI by automating your most complex labor operations!

PROMETHEUS GROUP

Crew Assignment

Assign crews to jobs throughout the day

Share critical information with crews on job progress

Provide flexibility and critical information to your crews – and watch their productivity soar!

Gate Reconciliation

WorkTech validates gate time vs. schedule for billable hours

Streamline onboarding via gate interface

Make the best use of your access control system and stop overpaying for time onsite!

PROMETHEUS GROUP

10

Observed Pain Points

- No feedback at plant/foreman level
- No visibility of ongoing contractor work - often weeks after work is completed
- Compliance with regulatory rules is impossible to ensure in real time
- Decentralized reporting - every contractor provides different format, often different systems providing reports to owner/enterprise
- Data mgmt effort is often required to consolidate contractor timesheets and reports
- Inaccurate pay rates applied to labor and material
- Constantly changing landscape

PROMETHEUS GROUP

Why Contractor Cost Tracking?

CCTS changes this tedious & error-prone 6-step process

21 Day Feedback

Into this accurate, efficient 2 step process

1 Day Feedback

Process 1 (6-step):

Assigned Work

DO WORK

1. TIMESLIPS
2. TIME SHEETS
3. COMPANY SIGN-OFF
4. COMPUTER ENTRY
5. INVOICE GENERATED
6. INVOICE APPROVED

CONTRACTOR PAID BY EFT

Process 2 (2-step):

Assigned Work

DO WORK

1. RECORD IN CCTS

CCTS VALIDATES AND PROCESSES

2. COMPANY APPROVES

CCTS DISTRIBUTES RESULTS TO ALL SYSTEMS

CONTRACTOR PAID BY EFT

PROMETHEUS GROUP

14

Overtime Equalization & Absentee Mgmt.

Supervisors assign overtime based on availability and OT rank

OTEQ considers company policy to provide a numeric ranking of eligible workers

Tool can be used for planned or un-planned OT work.

Rate structure guarantees that proper OT rate is paid for the work performed

Achieve fairness and transparency while adhering to your bargaining agreements!

PROMETHEUS GROUP

"

"*Giving both BP and non- BP personnel access to the same system serves as a very effective communication vehicle between BP and its contractors. CCTS is integrally woven into the fabric of daily life at BP. This has allowed the refinery to save more than $20 million annually.*"

-Doris Prewitt, Supervisor of Information & Data Control
British Petroleum (BP)

PROMETHEUS GROUP

Customer Case Study: First Energy

- CCTS manages two dozen electric generation plants across OH, PA, and NJ for First Energy, FE Solutions & Energy Harbor.

- Tracks external contractor labor, material, rental equipment and 3rd Party purchases using pre-negotiated rate schedules.

FirstEnergy®

Benefits:

Eliminates paper invoices requiring hours of content verification	Contractors are paid faster	Disputed charges do not hold up an entire invoice	FirstEnergy saves up to 2% of contractor payables by meeting Net 10 payment terms	Sends manager approved actuals to SAP aggregated to cost centers
