The Prometheus Journey

Mobility Trends in Plant Maintenance

- Digital Transformation and Mobility are the dominating trends in the Maintenance space
- Increased focus on User Interface and User Experience (UI/UX) rather than solely focusing on functionality
- **Offline functionality** is becoming increasingly important, even as plants become more connected
- Number of people retiring outnumber people entering the workforce

Key Issues and Challenges

- Lack of control by the Business Admins
- Feedback for continuous improvement
- We don't know what we don't know
- Analysis Paralysis
- Choosing the right metrics – structuring the metrics rightly
- Cultural Change – User Adoption

Workflow Control

- Strategic datasets
- Automated syncing
- Automated field entry
- Document attachment and markup
- Barcode, QR Code, RFID Scanning Asset ID
- Reliability Data Capture
- Configured Reports and Transactions
- Intuitive and Condition-based Rounds, Routes, Inspections

Live Demonstration

PROMETHEUS GROUP

Putting It All Together

- Business Ownership of the Solution
- Management of Change
- Process Feedback
- Automated metrics and reports
- Analytics for the long term
